Video Creation & Editing (Code-Dri	Remotion, React.js, Motion Graphics, Programmatic Video, Premiere Pro, After Effects

EDUCATION

UNIVERSITAS PAMULANG

2022 - 2026 | South Tangerang, Banten, Indonesia

Bachelor of Computer Science (Sarjana Komputer - S.Kom)

Final Project / Undergraduate Thesis:

"Analysis of the Effectiveness of the Cosine Similarity Method for Plagiarism Detection in Academic Documents" (Implementation of TF-IDF feature extraction & cosine similarity algorithms to measure text similarities).

PROFESSIONAL & LEADERSHIP EXPERIENCE

Web Developer Intern
2025

PT DIGITAL ANGKASA INDONESIA - South Tangerang, Indonesia

* Developed and maintained web applications aligned with project requirements and client business logic.
* Engineered robust backend architecture using PHP and built interactive frontends with HTML, CSS, and JavaScript.
* Administered relational MySQL databases using XAMPP, writing optimized queries for data integrity and speed.
* Conducted comprehensive debugging and troubleshooting sessions to improve application performance and stability.
* Collaborated cross-functionally with team members across feature development, code reviews, and testing cycles.

E-commerce Seller & Store Administrator
2021 - Present

Dhori Store (Lazada Marketplace) - South Tangerang, Indonesia

Store URL: https://www.lazada.co.id/shop/dhori-store/

* Operate and scale an active e-commerce store on the Lazada marketplace platform as owner and sole administrator.
* Manage a comprehensive catalog of 26+ products, optimizing listing titles, copywriting, and visual assets.
* Strategically register and align store inventory with official Lazada promotional campaigns and seasonal sales.
* Handle buyer inquiries and technical customer support with high responsiveness, achieving a 94% positive seller rating.

Community Service (PKM) - Front-End Web Trainer
2025

Universitas Pamulang x SMK Negeri 3 Tangerang Selatan - South Tangerang, Indonesia

Published Article: https://jurnalmahasiswa.com/index.php/appa/article/view/2232

* Spearheaded a Community Service Program providing front-end web development training using HTML and CSS for students of SMKN 3 Tangsel.
* Delivered structured workshops, instructional lectures, and hands-on guidance on building web portfolios and digital CVs.
* Mentored students on personal branding, digital portfolio presentation, and essential preparation for IT careers.
* Authored and published an academic journal article documenting the methodology, training metrics, and program outcomes.

CERTIFICATIONS & ACHIEVEMENTS

Google Analytics Certification
Google | September 2026

Demonstrated competencies in digital analytics, website traffic & behavior measurement, event tracking, custom reporting, and leveraging analytics data for strategic data-driven decisions.

AI Capabilities and Limitations
Anthropic | September 2026

Comprehensive training on generative AI fundamentals, Next Token Prediction, pretraining vs. fine-tuning, knowledge cutoff considerations, context windows, and practical guardrails.

HTML, CSS, JavaScript Certification
SoloLearn | October 2024

Proficiency in modern semantic HTML5 page structuring, responsive CSS layout styling (Flexbox/Grid), and vanilla JavaScript programming for dynamic web interactivity.

FEATURED PROJECTS

01 Programmatic Video Creation with Remotion

Lead Creator & Developer

Built animated motion graphics and commercial-grade video sequences entirely through React code using the Remotion framework. Showcases 6 diverse video productions: Web Scrolling, Pyramid Motion, Prison Narrative, Pirate Adventure, Dream Sequence, and Quran Typography. Frame-accurate, parameterized, and data-driven video composition.

Remotion | React.js | JavaScript | Motion Graphics | FFmpeg Rendering

02 Scholarship Management Web Application (App Beasiswa)

Full-Stack Web Developer | Code: https://github.com/doxxy22/app_beasiswa

Engineered a web application dedicated to managing scholarship applications, student eligibility evaluation, and institutional record keeping. Implemented relational MySQL database schemas, administrative dashboard controls, search filtering, and CRUD operations for managing student recipients.

PHP | MySQL | JavaScript | CSS3 | Apache / XAMPP

03 DooMovie - Interactive Movie Discovery Platform

Front-End Developer | Demo: https://doomovies.netlify.app | Code: https://github.com/doxxy22/doomovie

Designed and deployed a responsive web platform that connects to the TMDB API to deliver real-time movie exploration, search auto-complete, genre filtering, and detailed movie profiles. Focused on smooth client-side state handling, dynamic DOM rendering, and optimized API requests.

JavaScript (ES6+) | TMDB REST API | HTML5 | CSS3 | Netlify Deployment

04 Ninety Eight Training Camp - Promotional Platform

Front-End Developer | Demo: https://ninetyeight-camp.vercel.app | Code: https://github.com/doxxy22/ninetyeight-camp

Created a promotional landing page for Ninety Eight Training Camp, a premium boxing gym and training center. Features high-impact visual design, program breakdown, class schedule showcases, trainer profiles, and mobile-first responsive design for customer conversion.

JavaScript | HTML5 | Modern CSS | Responsive Design | Vercel Deployment
