Rido Anugrah

Front-End Web Developer

+6281316887410 | ridoanugrah2209@gmail.com | ridoanugrah

Profile

Informatics Engineering graduate (2026) focused on responsive front-end development with HTML5, CSS3, JavaScript, and React.js. Completed a web developer apprenticeship where I built and enhanced interface features, debugged front-end issues, and tested features before release. Enjoy turning designs into clean, functional webpages and eager to learn new technologies in a collaborative team.

Technical Skills

- Front-End: HTML5, CSS3, JavaScript, React.js, Responsive Web Development
- Debugging and QA: Browser developer tools, troubleshooting layout and front-end issues, feature testing
- Integration: REST API integration, connecting front-end with back-end and databases
- Back-End and Data (supporting): Node.js, PHP, MySQL, SQL Server, phpMyAdmin
- Languages and Concepts: Java, Python, Object-Oriented Programming

Experience

Web Developer Intern - PT Digital Angkasa Indonesia, South Tangerang | Apr 2025 - Jun 2025

- Built and enhanced interface features using HTML, CSS, JavaScript, and React.js based on user and project requirements
- Integrated front-end interfaces with back-end services and databases to support application functionality
- Debugged and troubleshot website issues, and tested features to confirm they worked as required
- Maintained existing websites with feature updates and fixes

E-commerce Seller & Store Administrator - Dhori Store (Lazada) | 2021 - Present

• Run an online store on Lazada as owner and sole admin: Dhori Store

• Manage a catalog of 26 products, inputting and updating listings, including titles, descriptions, and images

• Register the store for Lazada campaigns and promotions

• Reply to buyer chats and handle customer questions through the seller account, maintaining a 94% positive seller rating

Projects

Ninety Eight Training Camp - Landing Page

- Built a static promotional landing page for a premium boxing gym and training camp

DooMovie - Movie Search and Discovery Platform

- Developed a web app for searching and discovering movies, inspired by streaming platforms such as Netflix
- Integrated the TMDB API to load and display movie data dynamically

Best Student Scholarship Management App

- Built a web application to record and manage best-student scholarship data
- Used PHP and MySQL for the back end and modern CSS for the interface

Education

- **SMA Negeri 7 Tangerang** 2019 – 2022
- **S1 Informatics Engineering, Universitas Pamulang** 2022 – 2026
